Curtain Support Framework Systems

FEATURES

• Designed for installation of Acoustical Curtain Enclosures
• Floor, suspended, ceiling, beam and wall mounted systems
• Heavy-Duty structural steel systems available
• Double track systems allow for slide-open access
• CAD drawings provided for easy and accurate installation
ROLLER TRACKS
Universally fitting roller track system works with floor, wall, suspended, ceiling mounted or HD curtain enclosures. Mode from 16 gauge hot-dipped galvanized steel. Single or double track. Curved track: 2’ radius, 90° sgl. or dbl. All track pieces slide into all track connectors.

* 16 CT curved piece has flared ends, the same dimensions as a connector piece, and will accept straight track pieces fitted into its ends. Once assembled, if functions as a continuous piece of track. Curved connectors are available with mounting hardware for floor, suspended, wall, ceiling mounted or HD systems.

** Double floor is two identical pieces to be used with double connectors, but are not physically joined together.

STANDARD SYSTEM:
Mode from 12 gauge steel. Columns telescope over bases and connectors up to 12' in height.

TWO FLOOR BASE OPTIONS AVAILABLE
12” square, 1/4” thick steel plate.
6” square, 3/16” thick steel plate

CAD Drawings provided with all enclosures for easy assembly.

TRACK CONNECTORS
Universally fitting roller track connectors are made from 12 gauge zinc-plated steel. Single or double track; end, corner, middle.

UNIVERSAL TRACK PARTS
Universally fitting roller track connectors are made from 12 gauge zinc-plated steel. Single or double track; end, corner, middle.

* Roller hooks also available with steel rollers (16 SR-I).
SUSPENDED SYSTEMS
12 gauge, zinc-plated, Accepts up to 1/2" dia. threaded rod. Corner, middle, and curved connectors available for single or double track systems. Utilized to attach to I-beams.

CEILING MOUNT SYSTEMS
12 gauge, zinc-plated, Corner, middle, and curved connectors available for single or double track systems.

UNIVERSAL TRACK PARTS
Universally fitting roller track connectors are made from 12 gauge zinc-plated steel. Single or double track; end, corner, middle.
*Roller hooks also available with steel rollers (16 SR-1).

HEAVY DUTY SYSTEM
Mode from 2 1/2" square steel tube, 3/16" thick. Floor base, column, and cross-beam connector angle are one-piece all welded construction. HD curtain frames are pointed for durability.

STATIONARY VINYL STRIPDOOR HARDWARE
Mode from galvanized steel, aluminum, or stainless steel. 8’, 10’ or custom lengths available. Includes 1” studs (spaced 2” on center), clamping plates and lock nuts. Three styles to choose from.
HEAVY DUTY FRAME SYSTEM

• For large or toll enclosures
• For greater spans between columns
• Custom sized for any application
• Utilizes any style of Industrial Acoustical Curtain Panels
• 2 1/2” square steel tube framework easily supports roof systems as well as roof top ventilation baffles
• Shipped knock down with CAD drawing provided for easy installation

+ Panels may be bolted directly to frame, (photo above) or installed on sliding double track for maximum access (photo below)
