ANC-2010 & ANC-2010B

ACOUSTICAL CEILING TILES

Ceiling tiles are offered as both a sound absorbing as well as a combination sound absorbing/sound blocking tile.

ANC-2010 Ceiling Tiles have a white nubby cloth facing attached to a 1” or 2” thick rigid fiberglass board and have excellent sound absorption (NRC) ratings.

ANC-2010B Ceiling Tiles take the standard ANC-2010 tile and add a 1# per square foot foil backed vinyl noise to the backside of the tile for high sound absorption (NRC) and high sound blocking (STC) requirements.
