

Client: U.S. Embassy Moscow

CHALLENGE:

U.S. Embassy Moscow associates with All Noise Control; U.S. Embassy Moscow was about to set in motion with a project. The project had to do with the ceiling; they need double duty soundproofing ceiling tile. They need a product that would be ideal solution for industrial and office environments. U.S. Embassy Moscow needed the product to prevent sound transmission as well as reducing reverberation from the ceiling. U.S. Embassy Moscow knew that All Noise Control would have a resolution to their dilemma. U.S. Embassy Moscow felt 100% confident that their preference to use All Noise Control products was their right decision.

GOAL

The main goal of the project was to introduce U.S. Embassy Moscow with a product that would be ideal to their requirements. Prevent sound transmission as well as reducing reverberation, the noise loss ability of existing acoustic ceiling tiles. All Noise Control had to find a combination of the barrier and melamine foam which makes a perfect ceiling tile addition for reducing noise traveling through substandard ceiling tiles.

SOLUTION

All Noise Control notified U.S. Embassy Moscow that we had a product that would be soundproofing. The product introduced to U.S. Embassy Moscow is the Acoustical Ceiling Tile Barrier (ANC-CTBF22.) This would be the solution to the request of the soundproofing product that U.S. Embassy Moscow was interested. All Noise Control would be able to provide U.S. Embassy Moscow with the soundproofing product, once the two companies had discussed the dimensions of the area. All Noise Control would be able to place the order of the product.

ABOUT THE PRODUCT

The Acoustical Ceiling Tile Barrier (ANC-CTBF22) has fiberglass backing, class 1 fire rated with 1-pound vinyl 1/8" thick with aluminized Mylar facing. STC rating of 29. All Noise Control ceiling tile barriers are a cost effective, industrial strength soundproofing and noise control solution. You can use our ceiling tile barriers by laying it on top of existing commercial ceiling tiles with the fiberglass side down.

SUCCESS

Our Client, U.S. Embassy Moscow, was very pleased with the results. All Noise Control completed the accomplishment they wanted to achieve. It with the acoustical ceiling tile barrier. Now the noise pollution will be noise problem.
