

CASE STUDY

ORLANDO UNIVERSAL STUDIO FEAR FACTOR STAGE NEEDS OUTDOOR SOUND SOLUTION

Universal Studios contacted All Noise Control with a unique, literally large, outdoor acoustics problem. Universal Orlando's Fear Factor stage created substantial noise due to its extreme activity: people and equipment alike. The noise had been travelling well beyond the stand and disturbing the surrounding areas.

All Noise Control produced custom Acoustic weatherproof Blankets (our ANC-ABI10 blankets) to be retrofitted to the stage. The blankets were fitted and supplied with full industrial Velcro edges and grommets to suspend.

The solution blocked the noise and allowed the Fear Factor stage to continue activity as intended without interfering with the surrounding areas.

We invite you to call All Noise Control at 561-964-9360 to discuss the noise control materials supplied to this particular middle school and are just as happy to listen to your individual needs and supply you with a customized All Noise Control Solution. You may also visit our acoustic blankets page for more information at www.allnoisecontrol.com.
