All Noise Control – Noise Barrier is a flexible noise barrier that is designed to stop the passage of sound through walls, ceilings and floor. Sound Quality Barriers come in a variety of models and sizes and are ideal for hotels, classrooms, homes, home theatres and any areas where reduction of noise transmission is necessary, with STC ratings up to 31.

## ADVANTAGES

All Noise Control – Noise Barrier is easily installed on wall, floors and ceilings. Complicated construction is unnecessary. Low cost solution for noise transmission problems.

## AVAILABILITY

All Noise Control – Noise Barrier is available in rolls 54" wide by 30' or 60' long, 270 sq. ft. per roll, with custom lengths available.
