

# CEILING GRID PANELS

---

## "Did You Know?" – Surprising Facts About Ceiling Grid Panels

Ceiling grid panels may seem like just another building material, but they offer benefits that many people don't know about. Here are some surprising facts that might change how you view them!

### 1. Did you know ceiling grid panels can improve mental focus?

In offices and schools, poor acoustics lead to distractions. **High NRC panels** reduce unwanted noise, improving concentration and productivity.

### 2. Did you know they can help control temperature?

Certain ceiling grid panels offer **thermal insulation**, helping maintain indoor temperatures and reducing energy costs.

### 3. Did you know they can be made from recycled materials?

Eco-friendly ceiling grid panels use **recycled content**, reducing environmental impact while maintaining excellent acoustic performance.

#### **4. Did you know they help with fire safety?**

Fire-rated panels slow the spread of flames, meeting strict **ASTM E84 Class A fire regulations** for commercial buildings.

#### **5. Did you know they are used in airports and hotels?**

Major airports, hotels, and commercial spaces use ceiling grid panels to control noise and enhance guest comfort.

#### **6. Did you know there are different types of ceiling grid panels?**

From **fabric-wrapped to perforated metal**, different materials offer various benefits for different spaces.

#### **7. Did you know installation is fast and simple?**

Ceiling grid panels can be installed in **a matter of days**, making them one of the quickest soundproofing solutions.

#### **8. Did you know they can reduce echo in large rooms?**

High ceilings often cause **sound reflections**, but **ceiling grid panels absorb sound waves**, creating a quieter space.

#### **9. Did you know they can improve aesthetics?**

Modern ceiling grid panels come in **custom colors, textures, and patterns** to enhance interior design.

#### **10. Did you know that All Noise Control provides premium-quality ceiling grid panels?**

We offer **fire-rated, high-performance ceiling panels** tailored for any commercial space. Contact us today to learn more!
